

Links to Glen Innes - June Construction Summary

We'd like to update the Glen Innes community on our recent activities, as well as the upcoming roadworks in the area.

A huge thank you to everyone for your patience as we deliver road upgrades to support the area's future growth.

Mānawatia a Matariki: We're taking a break from roadworks during the Matariki weekend from Friday 20 to Tuesday 24 June

From Friday 20th to Tuesday 24th June, Apirana Avenue, Pilkington Road and Tripoli Road will be open. However, there may be some road cones, signage or fencing in place to keep the road safe around the incomplete zones. We will return to the Line Road on Monday 23 June 2025.

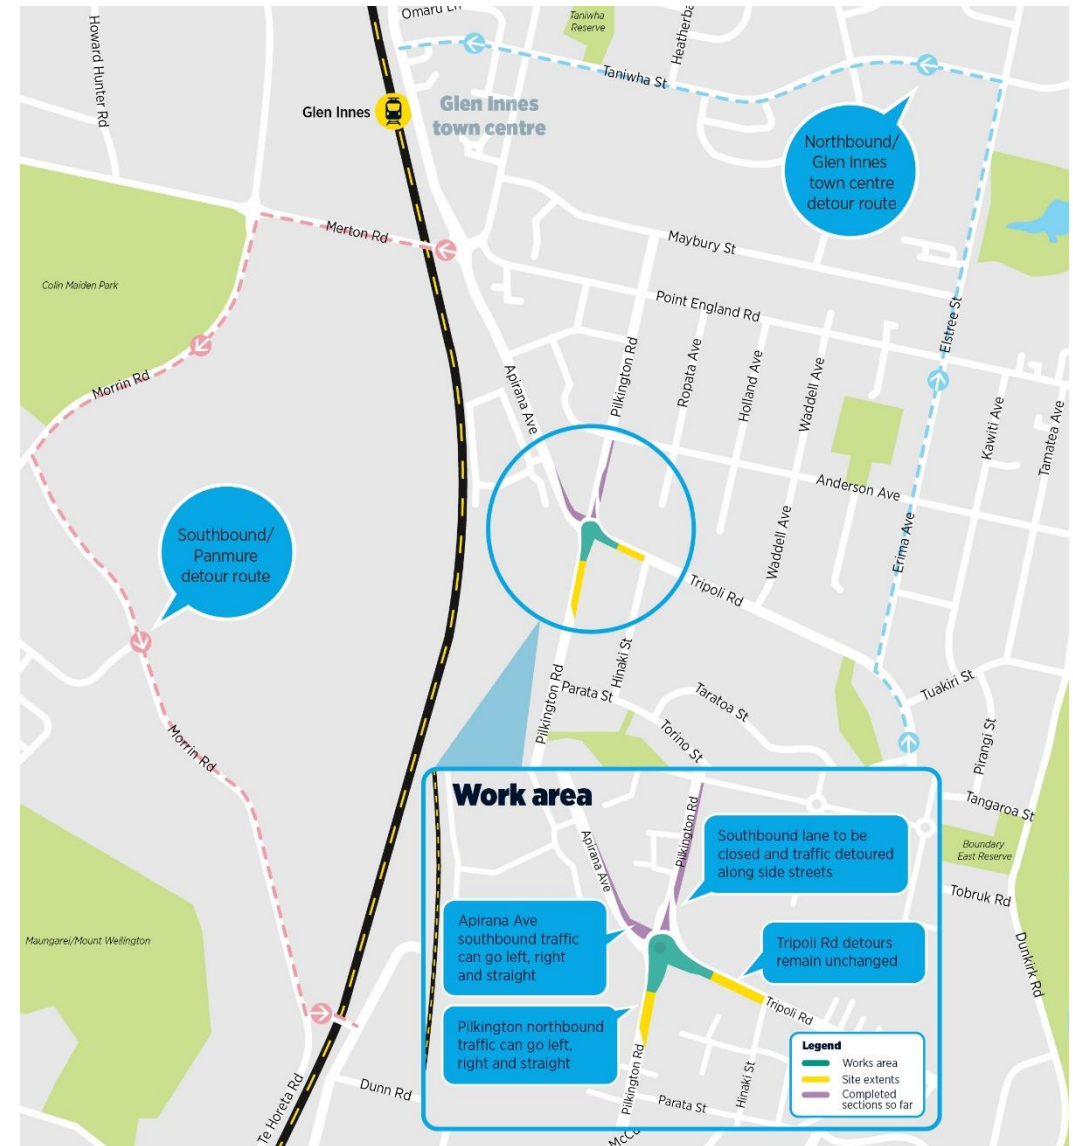

What's happening at the Apirana Ave, Pilkington Road, Tripoli Road roundabout?

We started upgrading this roundabout on 19 May 2025 and anticipate the works to take 14 weeks in total. The roundabout works are currently progressing on schedule. However, as we continue the works through winter, we may experience some delays due to inclement weather conditions. We will keep you updated if there are any changes to our estimated timeframes.

We've completed the installation of a raised pedestrian crossing and off-road cycleways along Pilkington Road North, as well as parts of Apirana Avenue and Tripoli Road.

What this means for people travelling through the area:

- To avoid the roundabout, follow the northbound or southbound detour routes.
- If you're travelling north on Pilkington Road, you'll still be able to access Apirana Ave and Tripoli Road.
- If you're travelling south on Apirana Avenue, you'll be able to access all of Pilkington Road and Tripoli Road.
- The left turn from Tripoli Road onto Pilkington Road will be closed. Locals can still access Pilkington Road via Parata Street and Hinaki Street.

We'll start the Tripoli Road and Pilkington Road southbound works on Wednesday 25 June

What this means for people travelling through the area:

- STOP/GO traffic lights will remain in use at the roundabout to allow safe work while keeping traffic moving. If you need to travel through the roundabout, expect longer travel times.

Once the Tripoli Road and Pilkington Road southbound works are done, we'll shift to Apirana Avenue and Pilkington Road

We anticipate starting this stage of the on 25 July 2025 and these works will take 4 weeks.

What's happening on Line Road, between Merfield Street and West Tamaki Road?

From 23 June to 5 July 2025, the intersection of Merfield Street and Line Road will be closed. Residents can enter via Castledine Crescent. As we move from the Merfield Street intersection towards West Tamaki Road from the week of 7 July. A one-way detour will be in place for around five weeks during this time.

Southbound traffic will be able to travel down Line Road, with northbound traffic being detoured via Eastview Road.

What's happening at the Eastview Road and Apirana Avenue intersection?

We're on schedule to complete the upgrades at this intersection by 4 July 2025, weather permitting.

We're making the temporary changes at this intersection permanent to improve safety for people walking in the area.

Please note that this set of works is separate to Links to Glen Innes.

Why are we making these roading upgrades in Glen Innes?

Around 5,100 new homes are expected to be built in Glen Innes over the next decade. This housing development is supported by major investment in parks, community facilities, streets, stormwater systems, utilities, and transport.

AT is supporting this growth by creating more options for people to travel sustainably and safely, whether by car, bike, bus, train or on foot.

We'll also be collaborating and coordinating with other organisations doing works in Glen Innes including utility providers, Watercare, housing developers and Kāinga Ora. Together, we're contributing to the growth and improvement of the area.
