

Point Chevalier to Westmere improvement project

Thank you for your support, we know it has been tough on the neighbourhood, the construction seemed to go forever, but the end is here! We have now completed the delivery of the project! You will see that there is still some ongoing minor work that needs to be completed to ensure that the project complies with the final safety audit. This work is being completed as quickly as possible by our contract partners—but will cause minimal disruption to the community.

This final edition celebrates the completion of the project and provides an opportunity to Spotlight some of your amazing local businesses

Little French Café Pt Chevalier

We're Back to Business—No More Roadworks! After a year of road cones, detours, and the not-so-charming symphony of jackhammers, the roadworks are finally gone! The path to your favourite little French Café is clear, and we couldn't be happier.

We want to thank you for sticking with us through the disruptions. Your support has meant everything, and now it's time to celebrate! Join us this Monday-31 March for a Roadworks Recovery Special—a free road cone macaron with every coffee purchase (because let's be honest, we all deserve it) for the 1st 150 customers. The smell of fresh pastries is uninterrupted, the seats are waiting, and our doors are wide open (Figuratively). See you soon for a well-earned café moment!

Merci et à bientôt,

Thank you

A big thank you to St Francis school for providing the artwork for our newsletters and for setting up and supporting a new Walking School Bus to help ease congestion during the road works!

Timeline

We have completed ahead of schedule!!

The Auckland Transport and Dempsey Wood project team have consistently prioritised minimising disruption throughout the delivery of this project, recognising the impacts on residents, businesses and the wider community.

We have worked together very closely and collaboratively, innovatively finding ways to deliver this project through the many challenges. Adjustments were made during construction to optimise outcomes and achieve time efficiencies for both the project and the community. Optimising extended traffic closures to cover larger areas for extended periods, enabled multiple crews to work concurrently, significantly enhancing productivity and shortening the overall project timeline. This included reviewing the phases for delivering each of the road corridors and finding ways to ensure that traffic continued flowing, such as the half/half approach while building the Pt Chevalier/Meola Rd roundabout which was initially planned to be fully closed for up to three months. Through this approach we were able to complete this project in March 2025 earlier than the planned June 2025 we had programmed. There will still be planting in the area from April due to planting over the high summer months being untenable. On going maintenance in the area will continue as necessary

What next?

We are currently planning a community event to celebrate the completion of this project and thank the community and businesses in the area. We are anticipating this will be held in May, so look out for the posters and Social Media posts for more information in the coming weeks.
