

Links to GI March 25 Update

In our March roundup, we want to update you on what's been happening on Line Road, the finishing touches we're putting on sections of the network, and planned future works.

In short

We've completed the finishing touches on the **Morrin Road, Stonefields Avenue, and Taniwha Street cycleway**. This section of the cycleway is officially complete!

The **Line Road and Taniwha Street roundabout** is now complete. We're working on **Line Road from the roundabout up to Eastview Road**.

We're planning to start works at the **Pilkington Road, Apirana Avenue, and Tripoli Road roundabout** in April. More details to follow once the start date has been confirmed.

Line Road

The Line Road and Taniwha Street roundabout has been completed. A final resurfacing will be done once all works along Line Road has been completed.

Our crew is now doing enabling works, such as streetlight relocation and tree removal, up to Eastview Road.

We've also started working on improving drainage, constructing new kerb and channels, and a pedestrian crossing between the Taniwha and Eastview Reserves.

Line Road works in progress

Taniwha Street, Stonefields Avenue, and Morrin Road

We've added final touches to Taniwha Street (within the Glen Innes Town Centre), Stonefields Avenue, and Morrin Road. These sections of the cycle network have now been freshly painted and are ready for use!

Community Spotlight

This month, we're excited to speak to Diana, the Arts Programmer at Te Oro. Te Oro is an amazing multi-purpose space for the local community to come together to learn, practise, express their creativity and talents, and celebrate their cultures.

What does the GI community mean to you and the team?

It's the reason why we do what we do, and it means a lot to us. We seek to do our best to be a positive force and to serve our community in all things creative and community.

Are there any lesser-known facts or features about Te Oro that the community may not be aware of?

The pattern on the floor of Te Oro symbolises the connection of the arts going out towards the community. There is also no other arts facility like Te Oro with its studios for theatre, audio recording, dance, carving, and visual arts. Te Oro is also fully solar powered!

What's coming up at Te Oro that you're excited about?

We'll be celebrating our 10-year anniversary on Saturday 10 May! We'll be putting on a free community event with awesome headlines, local acts, dance battles, activations, live art and performances. There will also be a very special photography exhibition, featuring local photographer Jesse Marsters whose exhibition showcases portraits of the Glen Innes Town Centre community.

What's next

Apirana Avenue, Tripoli Road, and Pilkington Road roundabout cycling and pedestrian upgrades.

When? April to June 2025 (more details will be shared once confirmed)

Why? To connect the existing completed sections of the cycleway to make it easier for people to cycle to and from the Glen Innes Shopping Centre and Train Station once completed.

**Thank you for your patience,
